- GAAP EPS of \$(0.02) and Non-GAAP EPS of \$0.02
- Raising 2017 revenue, gross margin, Non-GAAP earnings per share and Adjusted EBITDA guidance

Limelight Networks, Inc. (Nasdaq:LLNW) (Limelight), a global leader in digital content delivery, today reported revenue of \$46.1 million for the third quarter of 2017, up 17% compared to \$39.5 million in the third quarter of 2016, and up two percent compared to \$45.4 million in the second quarter of 2017. Currency exchange negatively impacted year-over-year comparison by \$0.2 million, or less than one percent.

Gross margin was 48.4% in the third quarter of 2017, an increase of 730 basis points from 41.1% in the third quarter of 2016.

On a GAAP basis, Limelight reported a net loss of \$1.8 million, or \$0.02 per basic share, for the third quarter of 2017, compared to a net loss of \$6.1 million, or \$0.06 per basic share, in the third quarter of 2016.

Non-GAAP net income was \$2.2 million, or \$0.02 per basic share, for the third quarter of 2017, compared to non-GAAP net loss of \$0.3 million, or break-even per basic share, in the third quarter of 2016.

EBITDA was \$3.4 million for the third quarter of 2017, compared to negative \$0.7 million for the third quarter of 2016. Adjusted EBITDA was \$7.4 million for the third quarter of 2017, compared to \$5.1 million for the third quarter of 2016.

Limelight ended the third quarter with 535 employees and employee equivalents, up from 533 employees at the end of the second quarter of 2017, and up from 502 employees in the year ago period.

“We are pleased with Limelight’s third quarter results that showed sequential improvements even in a seasonally weak quarter, and marked record achievements across multiple key financial and non-financial metrics. Customers continue to reward Limelight’s performance gains by sending us more business, and we believe we are continuing to take market share. Pricing discipline and operational efficiencies are driving massive gains in

gross margin, and the significant and continuing improvement in our Net Promoter Score confirms our customer's growing satisfaction with the value they obtain from Limelight," said Bob Lento, Chief Executive Officer at Limelight.

"In light of the strength of our results, we are again raising guidance for Limelight's full year revenue, gross margin, non-GAAP earnings per share, and Adjusted EBITDA. We foresee Limelight's 2017 operating performance to be our best ever, and we plan on improving further in 2018. As we've said before, we operate in a healthy and growing industry, we are proud to serve our customers, we are a good partner for our vendors, we are a desirable employer, and we are acutely focused on delivering exceptional shareholder returns," Mr. Lento added.

Based on current conditions, for the full-year 2017, we are providing the following updates to our previously announced guidance:

### Use of Non-GAAP Financial Measures

To evaluate our business, we consider and use non-generally accepted accounting principles (Non-GAAP) net income (loss), EBITDA and Adjusted EBITDA as supplemental measures of operating performance. These

measures include the same adjustments that management takes into account when it reviews and assesses operating performance on a period-to-period basis. We consider Non-GAAP net income (loss) to be an important indicator of overall business performance. We define Non-GAAP net income (loss) to be U.S. GAAP net income (loss), adjusted to exclude provision for litigation, share-based compensation, litigation expenses, and amortization of intangible assets. We believe that EBITDA provides a useful metric to investors to compare us with other companies within our industry and across industries. We define EBITDA as U.S. GAAP net income (loss) adjusted to exclude depreciation and amortization, interest expense, interest and other (income) expense, and income tax expense. We define

Adjusted EBITDA as EBITDA adjusted to exclude provision for litigation, share-based compensation and litigation expenses. We use Adjusted EBITDA as a supplemental measure to review and assess operating performance. Our management uses these Non-GAAP financial measures because, collectively, they provide valuable information on the performance of our on-going operations, excluding non-cash charges, taxes and non-core activities (including interest payments related to financing activities). These measures also enable our management to compare the results of our on-going operations from period to period, and allow management to review the performance of our on-going operations against our peer companies and against other companies in our industry and adjacent industries. We believe these measures also provide similar insights to investors, and enable investors to review our results of operations “through the eyes of management.”

Furthermore, our management uses these Non-GAAP financial measures to assist them in making decisions regarding our strategic priorities and areas for future investment and focus.

The terms Non-GAAP net income (loss), EBITDA and Adjusted EBITDA are not defined under U.S. GAAP, and are not measures of operating income, operating performance or liquidity presented in accordance with U.S. GAAP. Our Non-GAAP net income (loss), EBITDA and Adjusted EBITDA have limitations as analytical tools, and when assessing our operating performance, Non-GAAP net income (loss), EBITDA and Adjusted EBITDA should not be considered in isolation, or as a substitute for net income (loss) or other consolidated income statement data prepared in accordance with U.S. GAAP. Some of these limitations include, but are not limited to:

- EBITDA and Adjusted EBITDA do not reflect our cash expenditures or future requirements for capital expenditures or contractual commitments;
- these measures do not reflect changes in, or cash requirements for, our working capital needs;
- Non-GAAP net income (loss) and Adjusted EBITDA do not reflect the cash requirements necessary for litigation costs, including provision for litigation and litigation expenses;
- these measures do not reflect the interest expense, or the cash requirements necessary to service interest or principal payments, on our debt that we may incur;
- these measures do not reflect income taxes or the cash requirements for any tax payments;
- although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will be replaced sometime in the future, and EBITDA and Adjusted EBITDA do not reflect any cash requirements for such replacements;
- while share-based compensation is a component of operating expense, the impact on our financial statements compared to other companies can vary significantly due to such factors as the assumed life of the options and the assumed volatility of our common stock; and
- other companies may calculate Non-GAAP net income (loss), EBITDA and Adjusted EBITDA differently than we do, limiting their usefulness as comparative measures.

We compensate for these limitations by relying primarily on our U.S. GAAP results and using Non-GAAP net income (loss), EBITDA, and Adjusted EBITDA only as supplemental support for management's analysis of business performance. Non-GAAP net income (loss), EBITDA and Adjusted EBITDA are calculated as follows for the periods presented in thousands:
